6. Third-Party Service Providers

To operate CryptoDeclare, we rely on the following third-party processors. All are bound by data processing agreements and provide adequate data protection guarantees:

Provider	Country	Purpose	Safeguard	Privacy URL
Vercel, Inc.	United States	Web hosting & edge functions	EU-US Data Privacy Framework	vercel.com/legal/privacy-policy
Anthropic, PBC	United States	AI report generation (API)	EU-US Data Privacy Framework	anthropic.com/privacy
Stripe, Inc.	United States	Payment processing	EU-US Data Privacy Framework	stripe.com/privacy

Note on AI processing: When you upload a transaction file, the parsed CSV text (no personal identifiers beyond asset amounts and dates) is sent to the Anthropic API to generate your tax report. Anthropic does not use API data to train its models. No wallet addresses or personally identifying information is included in the API payload.

7. International Data Transfers

Our service providers are based in the United States. Switzerland and the EU have recognised that transfers to US entities participating in the EU-US Data Privacy Framework (DPF) or covered by Standard Contractual Clauses (SCC) provide an adequate level of data protection. All three providers listed above participate in the DPF or have executed SCCs. You may request a copy of the applicable safeguards by contacting us at hello@cryptodeclare.ch.

In the unlikely event of a personal data breach that poses a risk to your rights and freedoms, we will notify the FDPIC within **72 hours** and affected users without undue delay, as required by Art. 24 nDSG and Art. 33-34 GDPR.

10. Children's Privacy

CryptoDeclare is not directed at individuals under the age of 18. We do not knowingly collect personal data from minors. If you believe a minor has provided us with personal data, please contact us immediately at hello@cryptodeclare.ch and we will delete it promptly.

11. Changes to This Policy

We may update this Privacy Policy from time to time to reflect changes in our practices or applicable law. When we do, we will update the version number and effective date at the top of this document and post the updated policy at cryptodeclare.ch/privacy.
